

EMS Fleets

Geotab's GPS fleet platform has been designed with the fleet user in mind and enables Checkmate reports to drive payback for fleet users. With Geotab solutions, drivers are issued Driver ID keys to identify the driver, should there be any question of driver accountability. Below are the most common Geotab Checkmate resource reports for the EMS industry:

GPS Data For Real Time Location

Geotab Go Live streams GPS coordinates by vehicle ID straight to your Checkmate software, allowing you to see where your vehicles are at all times.

Trips List Report

Provides accurate driving log reports of stops and starts, along with address and other useful trip information.

View Trips

No other system in the world records and shows you a trip as well as Geotab's patent pending GPS processor.

Speed Profile & Accident Reconstruction

Geotab provides second-by-second GPS detail of the final 90 minutes before an accident occurs, which could prove critical when reconstructing high speed occurrences or accidents.

Auxiliary Device Monitoring

Geotab can monitor lights, sirens, and other devices in relation to the vehicle position for proof of activity. Device usage is reported and can be easily displayed on a map.

Geotab Provides The Most Accurate GPS Trip Recording In The World

- Wireless data upload via 900 MHz RF solution and no monthly running costs
- Operational WiFi solution integrates with existing wireless routers and supports WPA and WEP encryption
- View your assets in real-time with the GO Live solution. GSM and CDMA options are available
- GPS navigation support for Windows and Windows Mobile devices
- Up to 30,000 records on-board recording using the world's only GPS discriminating processor that accurately depicts distance while optimizing memory
- Second-by-second accident data
- Flexible base unit allows future plug-in options including real time cellular or satellite AVL solutions
- Monitors auxiliary devices (PTOs)
- Vehicle immobilization writing is available as an add-on accessory
- Tamper resistant/water resistant housing

Geotab is the first expandable platform in the world that allows fleet managers to create the right hardware and software configuration to meet their operating objectives and budget. To review your fleet-specific requirements for productivity and ROI, please invite Geotab for a 2 hour fleet and business strategy meeting where addressing your objectives is our priority.
