

Geotab GO Anywhere Plus Asset Tracker

Master asset management

- Know where your assets are located
- Know how your assets are being used
- Optimize your assets' productivity

Stop losing money on untracked assets.

From trailers and containers to generators and construction equipment—how you track them matters. And ensuring visibility in remote areas across the U.S. also matters. Geotab GO Anywhere Plus, with T-Satellite helps fleet managers answer critical questions about their assets, even where traditional cell coverage is not available.

Take advantage of these capabilities:

- ✓ **Flexible power:** Wired* or replaceable battery (3–5 year life)
- ✓ **Know more:** Monitor not only location but ignition and engine hours
- ✓ **Extreme durability:** For preventative maintenance
- ✓ **Ease of use:** MyGeotab Platform integration lets you manage everything—assets, vehicles and data—in the same interface

*Harness Required

How GO Anywhere Plus works

Choose the mode that fits your operation:

- **Time-based:** Updates at set intervals for stationary assets
- **Movement-delayed:** Daily uploads maximize battery life
- **Movement-Immediate:** Near real-time alerts for theft prevention
- **High-frequency:** 15-minute updates for critical visibility

Tracking with GO Anywhere Plus

If it moves or can be moved, you can track it:

- **Hauling & logistics:** Trailers, containers, chassis
- **Heavy equipment:** Generators, excavators, skid steers
- **Tools & gear:** Welding machines, pumps, light towers
- **Operational equipment:** Medical, airline, marine, and utilities

Seamless integration into Geotab's Platform

When you add GO Anywhere Plus to your MyGeotab platform, your assets and vehicles are managed from a single dashboard.

Fleet telematics

(Geotab GO9 device)
track your vehicles.

Video telematics

(Surfsight Dash Cam, and Geotab GO Focus Plus) protect your drivers.

Asset tracking

(GO Anywhere Plus)
monitors your equipment.

Asset tracking simplified

Risk management

Maintain high standards by monitoring asset compliance with operational zones and safety protocols. Set predefined zones and times for your operation, support your safety program and enhance compliance with data-driven insights.

Theft prevention and recovery

Enhance asset security with timely location updates. High-frequency updates increase ping rates, so you can more quickly identify and locate missing or stolen equipment.

Operations management

Geotab GO Anywhere Plus makes it easy to track your non-powered assets—and optimize their use. Reduce their downtime, ensure equal usage between different items and improve ROI.

Maintenance scheduling

Tap into usage data for more effective maintenance scheduling, and ensure your assets are maintained efficiently during downtime.

It's better over here.
