

Geotab Student Transportation

The trusted, open platform for connected transportation

The strategic operating system for Student Transportation

School district transportation is a mission-critical operation built on a moral obligation to ensure student safety — while managing significant legal, financial, and reputational risk. Geotab is the strategic telematics operating system that integrates with your existing technology ecosystem to deliver a unified source of data, enabling proactive management and providing irrefutable evidence when it matters most.

Why Geotab

Customer-centricity
Built to grow with your district's needs.

Trusted security
End-to-end encryption - verifiable protection for student data.

Open platform and hardware agnostic
Connects to any system, any device.

Customization and rules engine
Configured precisely to your district's workflows.

Reliability and trust
Proven leader, always pushing what's next.

Data collection, storage, & analysis
Richer data, smarter insights at scale.

Partner network
Best in class routing, ridership, and transportation partners for Student Transportation.

The trusted, open platform for connected transportation

Student safety and driver accountability
GO Focus AI cameras deliver real-time in-cab coaching, 360° incident capture, and video evidence to exonerate drivers and protect your district.

Fleet optimization and operational efficiency
Predictive maintenance, curve logic routing, and real-time tracking keep every bus on route and every vehicle ready, powered by the GO9 Plus - Wi-Fi enabled for driver navigation tablets.

One-stop shop for on-vehicle technology
Geotab's Marketplace connects your fleet's best-in-class routing, ridership, safety and maintenance solutions - all available on one bill.

Streamlined regulatory compliance
Automate DVIR inspections and compliance reporting digitally - reducing violations and protecting your district from liability.

Recognize and reward your drivers
Reward safe driving and build a positive safety culture - give drivers the recognition they deserve and districts a proven tool for lasting behaviour change with Geotab Vitality.
