Geotab now offers a unique and expandable open telematics platform for Stellantis Group vehicles.

Factory-installed telematics on Stellantis Group^{1, 2} vehicles enables seamless vehicle data integration from Mobilisights servers into MyGeotab™, Geotab's fleet management platform. Fleet owners can view rich, high-quality data insights, such as vehicle location, speed, trip distance, electric vehicle charging status² and more on one consolidated platform. Plus, you can set up automatic warnings to notify about vehicle health,

ensure proactive care with key engine data and enhance safety through collision and ABS alerts².

This integrated solution does not require any aftermarket hardware installation to access connected vehicle data from many Stellantis Group¹ vehicles including Abarth, Alfa Romeo, Citroen, DS Automobiles, Fiat, Jeep, Lancia, Peugeot and Opel - Vauxhall.

One unified platform

¹ Available in the Europe region including and not limited to Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden, Switzerland and the United Kingdom.

² Confirm the vehicle eligibility through the [VIN lookup tool](#) on MyAdmin. Please verify with your reseller for any cellular network dependency. EV related data points are available on select makes and models. See vehicles compatible with this integration on page 4.

Benefits:

Integrated fleet management

Stellantis Group vehicle data from Mobilisights is funneled to MyGeotab for actionable insights on one integrated platform.

Powerful fleet management tools

Activity reports, driver behaviour monitoring, risk and safety reports and other fleet metrics provide better performance and improved fleet productivity.

Access to data based on your needs

Access broader vehicle data based on the feature-rich rate plans, Stellantis Premium and Stellantis Basic.

Maximise vehicle uptime

Factory-installed telematics on Stellantis Group vehicles with data services from Mobilisights, along with integration of MyGeotab's seamless fleet management features, helps vehicles operate at their peak utilisation rate.

Cost advantage and remote activation

Factory-installed telematics on Stellantis Group vehicles helps you save costs, time and does not require taking vehicles out of service for installation.
