- e. Additional Hardware Specific Conditions and Exclusions: Additional conditions and exclusions apply to certain Hardware, as set out below. The following exclusions and conditions are in addition to, and not in lieu of, the conditions and exclusions otherwise applicable to the Hardware Warranty.
 - i. *IOX-SATIRD*: Geotab is not responsible for the operation or failure of operation of any satellite based positioning system or the availability of any satellite based positioning signals.
 - ii. *IOX-KEYLESS-NK*: Geotab is not responsible for the integration of the Customer key fob with the IOX-KEYLESS-NK. Integration of a key fob into the IOX-KEYLESS-NK device is

the sole and absolute responsibility of the Geotab reseller (if performing the integration) or the key fob service provider appointed by the Geotab reseller and, in any case, is performed at the sole risk of the Geotab reseller or key fob service provider, as applicable. Accordingly, the Hardware Warranty applies solely to the IOX-KEYLESS-NK device prior to key fob integration and, in the event Customer submits a warranty claim relating to an IOX-KEYLESS device after a key fob has been integrated into an IOX-KEYLESS device, the Customer's reseller must provide evidence, to Geotab's satisfaction, that the root cause of failure stems from a breach of the Hardware Warranty prior to the integration. Without limiting any conditions or exclusions set out in this Warranty Statement or in the Customer Agreement, Geotab specifically disclaims any warranties, either express or implied by law, relating to the integration of the key fob with the IOX-KEYLESS-NK and in no event will Geotab be liable for any damage to the key fob, including any replacement thereof, as a result of the integration with the IOX-KEYLESS-NK.

- iii. *IOX-COLD*: To the extent permitted by law, Geotab is not responsible for the integration of the Customer's vehicle, trailer, reefer, or container, as applicable, with IOX-COLD. Integration of IOX-COLD into a vehicle, trailer, reefer, or container is in the sole and absolute responsibility of the Customer or Geotab reseller (if performing the integration) or the Geotab authorized IOX-COLD installer and, in any case, is performed at the sole risk of the Customer or Geotab reseller or installer, as applicable. Accordingly the Hardware Warranty applies solely to the IOX-COLD. To the extent permitted by law, Geotab shall have no liability in contract or in tort (including negligence or strict liability) or otherwise, for any injury, damage, or failure caused to vehicles, trailers, reefers, containers, contents, product cargo, goods, or any other property. Geotab shall also have no liability in contract (including negligence or strict liability) or otherwise for any special, incidental, indirect, or consequential damages whatsoever, including but not limited to loss or interruption of business, lost profits, losses or replacement costs for cargo, contents, and/or any other goods damaged, loss of use, temperature deviations, power interruption, electrical shortage, or mechanical failure. The remedies of the Customer herein are exclusive and the total cumulative liability of Geotab shall in no event exceed the purchase price of the individual IOX-COLD unit on which such liability is based.
