

# One integrated platform for connected and sustainable fleet performance

## Geotab Integrated Solution for Kia: Elevate fleet management for Kia vehicles, harnessing insights for enhanced visibility and business efficiency.

With OEM-installed telematics for Kia vehicles, view high-quality data insights to help monitor vehicle performance, vehicle status and more. Get centralised access to the connected vehicle data via the MyGeotab platform and the power to analyse performance for business decisions. Data points include GPS, engine metrics and warning indicators as well as for insights on vehicle location, fuel consumption, maintenance and more. This integrated solution does not require any aftermarket telematics hardware.

### Key benefits:

#### Integrated fleet management:

Upon request, vehicle data from Kia vehicles are funneled to MyGeotab platform for actionable insights on one integrated platform.

#### Access to data insights based on your needs:

Access broader vehicle data insights based on the feature-rich rate plan.

#### Cost advantage and remote activation:

No additional hardware or installation expenses, helping save time and money.

#### Powerful fleet management tools:

Get activity reports, maintenance alerts, energy utilization information and other fleet metrics – for better performance and fleet productivity.

#### Maximise vehicle uptime:

OEM-installed telematics units on Kia vehicles and integration of MyGeotab's seamless fleet management features, helps passenger vehicles operate at their peak utilization rate.

## Productivity

- Minimise downtime: Proactively monitor tire pressure and receive alerts to prevent costly breakdowns and keep your vehicles on the road.
- Effortless vehicle location: identify vehicle start/stop locations with GPS tracking for improved dispatching and operational oversight.
- Vehicle insights: Monitor fuel levels and state of charge for electric vehicles, ensuring your fleet is always ready for action.

## Operations

- Streamline maintenance: Set up automated maintenance reminders based on mileage to ensure timely vehicle upkeep and prolong vehicle lifespan.
- Optimise routes for efficiency: Plan the most efficient routes to minimise fuel consumption and reduce emissions.

## Sustainability

- Optimise energy consumption: Access detailed charging data for electric vehicles, enabling efficient energy management and cost savings.
- Reduce your carbon footprint: Monitor fuel economy across your fleet and identify areas for improvement, contributing to a greener future.

## Safety

- Promote responsible driving: Monitor speeding events and ensure adherence to speed limits, mitigating risk and enhancing your company's safety record, preventing accidents.

## Compliance

- Simplify mileage tracking: Easily differentiate between personal and business vehicle use for accurate reporting and expense management.

## Expandability

- Seamless integration: Leverage the Software Development Kit (SDK) and APIs to integrate with existing systems and tailor the solution to your specific needs.
- Future-proof your investment: Adapt and expand the solution's capabilities as your business grows and technology evolves.

The power of Geotab's telematics technology — along with Kia Connect — equips fleets with a turnkey connectivity solution that helps maximise productivity and reduces downtime. Collect and monitor rich, high-quality data from Kia's range of models, all with end-to-end data protection. With ready-to-go factory-installed telematics and an integrated MyGeotab fleet management platform, reaching a new level of connectivity couldn't be easier.

Eligible vehicle models from Kia include: Picanto, Rio, Stonic, Soul EV, Niro DE, Niro HEV, Niro PHEV, Niro EV, Niro SG2 (MY22) HEV, Niro SG2 (MY22) PHEV, Niro SG2 (MY22) EV, Ceed HB, Ceed SW, Ceed SB, Ceed PHEV, XCEED ICE, XCEED PHEV, Sportage (QL) MY21, Sportage (NQ5) (MY22), Sorento ICE, Sorento HEV, Sorento PHEV, EV6, Stinger.

The Geotab Integrated Solution for Kia is available in Austria, Belgium, Switzerland, Cyprus, Czech Republic, Germany, Denmark, Spain, Estonia, Finland, France, Great Britain, Greece, Hungary, Iceland, Ireland, Italy, Lithuania, Latvia, Netherlands, Norway, Poland, Portugal, Romania, Slovakia, Sweden.
