

One integrated platform for all fleets and assets.

Geotab and Mercedes-Benz Connectivity Services integrated solution

Factory-fitted telematics on Mercedes-Benz
passenger vehicles and vans.*

No installation or additional hardware required.

Gain access to Geotab's open and expandable fleet management platform, MyGeotab, for industry-leading web analytics capability. Understand your fleet at a deeper level with custom reporting tools in MyGeotab. Improve productivity, efficiency, and more with valuable insights to make better-informed, data-driven decisions.

Productivity

- + GPS tracking
- + Exception rules
- + Activity and trips reports
- + Easy dispatching

Fleet optimisation

- + Track fuel consumption
- + Monitor engine diagnostics and usage
- + Tire pressure
- + Plan maintenance

Compliance

- + Vehicle inspections
- + Private vs. commercial use
- + Driver identification

Sustainability

- + Battery voltage
- + Manage vehicle maintenance
- + Reduce fuel usage

Expandability

- + Software development kit and APIs

GEOTAB

Mercedes-Benz
Connectivity Services

Geotab and Mercedes-Benz Connectivity Services together offer advanced telematics solutions on one common platform. Reduce fleet costs, increase productivity and efficiency, improve safety and sustainability, and strengthen compliance.

Collect and monitor a wide variety of vehicle data points and fleet indicators from your Mercedes-Benz fleet vehicles, all with end-to-end data protection. With ready-to-go factory-fitted hardware and advanced data powered by Mercedes-Benz Connectivity Services, choosing Geotab couldn't be easier.

GEOTAB®

Geotab is advancing security, connecting commercial vehicles to the internet and providing web-based analytics to help customers better manage their fleets. Geotab's open platform and Marketplace, offering hundreds of third-party solution options, allows both small and large businesses to automate operations by integrating vehicle data with other data assets. As an IoT hub, the in-vehicle device provides additional functionality through IOX Add-Ons. Processing billions of data points a day, Geotab leverages data analytics and machine learning to help customers improve productivity, optimise fleets through the reduction of fuel consumption, enhance driver safety, and achieve strong compliance to regulatory changes. Geotab's products are represented and sold worldwide through authorised Geotab Resellers.
