

### Hub and Spoke (Quick Stops)

**Description:**The vehicle operates back and forth from a central hub and makes quick stops prior to returning to the hub. This is usually over a wider geographic area, and the vehicle makes a lot of short trips throughout the day.

**Examples:** Pizza Delivery, Parts delivery, On-demand delivery

### Hub and Spoke (Long Stops)

**Description:**The vehicle operates back and forth from a central hub and makes long stops prior to returning to the hub. This is usually over a wider geographic area. The vehicle usually drives farther per stop than those in the "Hub and Spoke Quick Stop" vocation.

**Examples:**On-site service and repair, Tool and equipment rentals, On-demand service

### Door to Door

**Description:**The vehicle serves many small neighbourhoods at a time and visits many areas that cover a wider geographic area. This could be planned routes that are in similar geographic areas. The vehicle typically has a number of stops throughout the day and drives short distances between these stops.

**Examples:**Couriers, Door-to-door package delivery

### Patroller

**Description:**The vehicle drives a significant distance throughout the course of the day where the distance between origin and destination is not direct. There is generally more driving than idling for this vocation.

**Examples:**Taxi, Police, Uber

### Daytime Tour (Long Stops)

**Description:**The vehicle operates during the business day going point-to-point from location to location and spends a long time at these locations.

**Examples:**Food and beverage delivery, On-site service company, Cable/phone/internet installers

### Night-time Tour (Long Stops)

**Description:**The vehicle operates during the night and/or overnite going point-to-point from location to location and spends a long time at these locations.

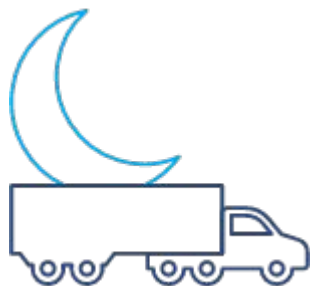

**Examples:**Food and beverage delivery, Emergency service, ATM and cash service, Cable/phone/internet

### Long Distance (All Hours)

**Description:**The vehicle operates over long distances at all hours of the day (usually interstate). It has fewer stop locations than other vocations and usually stops for a long time after a trip.

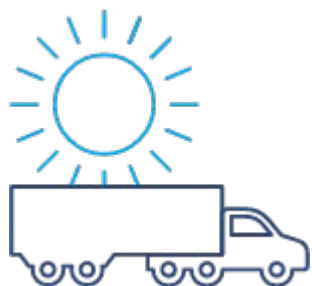

**Examples:**Long haul, Freight and logistics services

### All Hours Tour (Long Stops)

**Description:**The vehicle operates at all hours going point-to-point from location to location and spends a long time at these locations.

**Examples:**Food and beverage delivery, Energy company

### Long Distance (Daytime)

**Description:**The vehicle operates over long distances (usually during business hours only and interstate). It has fewer stop locations than other vocations and usually stops for a long time after a trip.

**Examples:**Long haul, Freight and logistics services

### Long Distance (Overnight)

**Description:**The vehicle operates over long distances (usually during night hours only and interstate). It has fewer stop locations than other vocations and usually stops for a long time after a trip.

**Examples:**Long haul, Freight and logistics services

### Local (All Hours)

**Description:**The vehicle operates at all hours of the day within a local area (usually within a 3 - 5 mile radius).

**Examples:**Yard management, Mining, Airport, Construction

### Tour Based (Worker Vehicle)

**Description:**The vehicle drives a significant distance throughout the course of the day where the distance between origin and destination is not direct. There is generally more idling than driving for this vocation.

**Examples:**Utility vehicles, Garbage trucks

## Local (Quick Stops)

**Description:**The vehicle makes many quick stops in a local area (usually within a 3-5 mile radius). The trips might be in a star or tour based topology, but the locations are very local.

**Examples:**Courier, Delivery

## Local (School Transport)

**Description:**The vehicle operates in the morning and mid-afternoon within a local area (usually within a 3-5 mile radius). It typically idles for longer than it is driven and most often the distance between origin and destination is not direct.

**Examples:**School buses

## On-demand

**Description:**The vehicle is used on-demand and sporadically for typically shorter time frames.

**Examples:**Rental car, Car share
